

Mohammad Mohagheghian

Front-end Developer

[Portfolio](#) | vito.mohagheghian@gmail.com | github.com/vito-mohagheghian

ABOUT ME:

As a front-end developer, I'm committed to continuous learning and growth, aiming to provide valuable solutions for companies and teams while improving my technical and soft skills.

SKILLS:

- NextJs
- TailwindCSS
- JavaScript
- ReduxJs
- ReactJs
- TypeScript
- Git
- Socket.io

WORK EXPERIENCE:

Freelancer

Front-end | 2021- Present

Goal: Enhance interpersonal ability to connect effectively with varied roles and obtain real-world project experience.

As a front-end developer in the team, I completed three complex projects in various subjects and significantly improved my technical proficiency in Next.js, React.js, JWT, TailwindCSS, and Redux.

RELEVANT PROJECTS:

Windows 11 on Web

[See Project](#)

[Github: vito-mohagheghian/wins-11](https://github.com/vito-mohagheghian/wins-11)

Tasks/Achievements

- Pushed coding limits and enhanced problem-solving skills with React.js and Redux through a challenging project.
- Coded from scratch in two weeks, putting in the best effort to make it a real experience.
- Explored various web app tools to enhance coding creativity.

IRTC - Front-end Dev

[See Project](#)

[Github: vito-mohagheghian/irtc-frontend](https://github.com/vito-mohagheghian/irtc-frontend)

Tasks/Achievements

- Implemented industry-standard techniques in React and Redux.
- Increased performance by 200% and SEO through server-side rendering (SSR) in Next.js.
- Developed a top-notch security system following industry-leading best practices for JWT.
- Improved communication to balance client needs and feature additions.

DEV TAB - Dashboard for developers

[See Project](#)

[Github: vito-mohagheghian/dev-tab](https://github.com/vito-mohagheghian/dev-tab)

Tasks/Plans

- Achieved precise design implementation and mastered TailwindCSS, resulting in a 100% match with the design.
- Explored new tools and acquired basic knowledge in various fields, enhancing learning skills through project challenges.
